

Elements, Compounds, and Mixtures Class Preparation

Before class starts, you will need the following items near you.

Items in kit	Items not in kit
1/2 T. sand and bean sample	funnel (or cut off top half of water bottle)
1 coffee filter (extra included)	4 small plastic cups
small magnet in a bag	1/2 c. water
Skittles candies	2 worksheets (print from website)
plastic bowl	paper towel/old towel
red, blue, green pony beads	

Preparation Instructions:

1. Gather all the items listed above and put them where you will be sitting for the class.
2. If you do not have a funnel, cut the top of a water bottle off and use it as a funnel (see photo on website).
3. Print the 2 worksheets from my website (<http://www.handsonsciencefun.com/chem-videosworksheets.html>).
4. Put the red/blue/green beads and Skittles candies in the plastic bowl.
5. Put the magnet in a small zip lock bag.
6. Fill a cup with $\frac{1}{2}$ water.
